Portfolio: mozammel-portfolio.vercel.app | Sakhipur, Tangail, Bangladesh

SUMMARY

Results-driven Full-Stack Software Engineer with strong production experience building enterprise web applications, real-time communication systems, and desktop solutions. Specialized in the Microsoft stack (.NET Core, C#, ASP.NET Core) combined with modern front-end frameworks (React, Blazor, Angular). Strong background in clean, modular architecture, RESTful services, and real-time WebRTC/SignalR integrations.

TECHNICAL SKILLS

- **Languages:** C#, JavaScript, TypeScript, SQL, HTML5, CSS3, PHP
- **Backend:** ASP.NET Core, Web API, Entity Framework Core, Dapper, SignalR, CQRS, MediatR
- **Frontend:** React.js, Blazor, Angular, Redux, Bootstrap, Tailwind CSS
- **Databases & Real-Time**: SQL Server, PostgreSQL, MySQL, Socket.io, WebRTC
- **Architecture & Tools**: Clean Architecture, REST APIs, Microservices, Git, Docker, Postman

PROFESSIONAL EXPERIENCE

Associate Software Engineer | Quad Theory Ltd.

June 2024 – November 2025 | Dhaka, Bangladesh

- Architected and maintained enterprise ASP.NET Core Web APIs, reducing request latency by optimizing EF Core queries and implementing asynchronous patterns.
- Engineered dynamic, responsive user interfaces using React.js and Blazor, improving front-end performance and cross-browser consistency.
- Designed database schemas and optimized complex SQL queries in SQL Server to ensure fast execution and data integrity.
- Integrated SignalR and WebSocket connections to support real-time data streaming and live user status updates.

Full-Stack Software Developer (Independent / Projects)

2026 – Present | Sakhipur, Tangail, Bangladesh

- Designing high-performance software projects, specializing in C#, Angular, Blazor, and real-time communication protocols.
- Developed a desktop image editor utility exploring custom graphics and pixel buffer rendering.

Software Developer | eKutum.com (PHP / MySQL/ Wordpress)

2022 – 2023 | Bangladesh

- E-commerce platform designed and developed.
- Local Payment Gateway.

Software Engineering Intern (PHP / MySQL)

2019 – 2020 | Bangladesh

- Completed an intensive 6-month internship focused on backend web development, relational database modeling, and custom PHP module development.

FEATURED PROJECTS

Secure Access & Personnel Management System (Government Enterprise Client)

- Engineered a high-security Access Control System (SCS) for enterprise identity verification and personnel tracking using ASP.NET Core, Angular and SQL Server.
- Implemented role-based authorization, dynamic form building, encrypted data pipelines, and real-time activity audit logging to maintain strict security compliance.
- Optimized database queries and backend API response times for seamless, high-concurrency authentication checks.

GoTaste – Restaurant Ordering & Management Platform

- Developed and maintained a scalable restaurant ordering and management platform for UK-based businesses using ASP.NET Core, React.js, and SQL Server.
- Designed and optimized complex SQL Server stored procedures handling payment calculations, tax rates, service charges, and billing workflows.
- Built robust RESTful APIs and backend business logic for order lifecycle management and secure payment processing.
- Delivered production feature enhancements and resolved critical issues within an Agile sprint environment.

Real-Time WebRTC & SignalR Messenger System

- Engineered a full-stack real-time communication platform supporting low-latency video/audio calling, screen sharing, and instant messaging.
- Implemented an ASP.NET Core backend utilizing SignalR for primary signaling with Socket.io fallback mechanisms.

Cross-Platform 3D Game Project (Unity / C#)

- Developed and published (Desktop and Android) a complete interactive game built with Unity Engine and C#.
- Implemented custom player mechanics, collision physics, state management, and event-driven UI workflows.
- Optimized asset rendering and memory usage to ensure smooth frame rates and cross-device performance.

EDUCATION

Diploma in Computer Engineering (4-Year Program)
HABHIT (Hazi Abul Hossain Institute of Technology) | 2015 – 2019
